**WORDS UTTERED BY GOD CONCERNING THE PESTILENCE**

# THE CRUEL PESTILENCE

## Words Uttered by God Concerning the Pestilence

When large swarms of locusts shall fly upon the nations, you shall be watchful. In the beginning it shall fly sporadically in some nations. Afterwards, their numbers shall multiply and increase and spread to several other nations. At that time, terrible sicknesses and deadly diseases that swiftly devour men will appear. On account of this, large number of deaths will occur amongst mankind. As a result, men will be terrified and run helter-skelter. You will see men die in villages and also in towns in large numbers. You will also see the dead corpses of people being strewn in the streets and the medicine, administered unto them, being ineffective. On account of its severity, people will be terrified to bury the dead and even to touch the one, who is infected with the virus. Corpses will be buried in pit holes in large numbers. Since their corpses will be cremated on a large scale, nations will be filled with its smoke. Danger will be spread through the air. Nations will be horrified at these deaths. One will say these deaths have been caused by the flocks and hence let us cull them: while another one will say 'this has been caused by the birds, let us hunt them down'. Yet another will say 'the serpents have spread this;

let us destroy them'. However, they will be unaware that this was caused by mankind. Those, who are responsible for this will maintain silence. Although this disease, which may externally seem to be natural, yet, in reality, they were produced by men. This is primarily being done so as create an utter chaos in the nation, thereby cause an impact to destroy the livelihoods of people and terrify them, which will distract the attention of the people away from the malicious deeds that are undertaken in the nation. People will keep discussing about it. They will be concerned only about this: as a result, they will not have strength to observe the evil deeds and those who execute this sinister task. Even though some people may point out saying the nation is being ravaged and plundered by the wicked men, people will be worried more about the outcome of the diseases caused by the virus than anything else. There is none to bemoan the evil brought into the nation: neither anyone who will put on the responsibility. Is not because of these, that evil has engulfed the nation like a raging fire with none to douse it? says the Lord. This cannot be controlled by the wisdom of men. Neither will their knowledge accomplish anything. But it is through the tears of the one, who bears My name and wishes not the death of the dying, and puts on the burden and stands in the hedge, and pray, which alone is the remedy and the weapon to contain it. (Date uttered: 15<sup>th</sup> August 2015, Place: Ramanathapuram)

## Danger That Shall Fall Upon China

Behold, evil shall fall upon the nation of chin and Zoan'gua. It shall be such that it casts away the trust and very dreadful and it shall hunt down and kill the people in groups. This dreadful event, which shall terrify the nations, will first fall upon the land of chin and after sometime, it shall set out from the land of Zoan'gua. On account of its vigor, large number of people will die. The evil which shall set out from the land of chin, will prevail upon the inhabitants, dwelling in majority of the surrounding nations too. At that time, tribes of people will be terrified and tremble. They will witness corpses falling down in the streets, and it shall breach walls and brazen bars. It will neither be contained by smoke nor be doused with fire. All its thirst is for the lives of men. I have a contention against the land of chin and that of Zoan'gua. The land of Zin, had trusted in its power declaring that they have fattened through the efforts of their hands and they shall prevail upon nations. It hated My people and destroyed their livelihoods and ravaged the temples of worship. They will also claim that it is the serpent, which has begotten them and that the serpent is their god and it hated good and desired wickedness. Like the serpent provoke them with its tongue, so shall evil provoke them. They will say that the serpent which they worshipped, devoured them. At that time, the fire which was blazing in

the nation, will attempt to sneak into all its surrounding countries where the inhabitants have spread. Behold, the nation is waiting to be punished for its wrong doings and pay the price for kits folly. Evil shall engulf upon it like an inferno. It is only when people, who bear My name and who have spread in other nations, put on the responsibility, that I will take note of it and I will erect barricades in the borders when the evil spreads. He who dug a pit shall fall into it. Likewise, evil will devour the men, who created it, says the Lord. (Date uttered 8<sup>th</sup> October 2016, Ramanathapuram)
